CONTEMPORARY SAFETY & SECURITY[^]

For those who want the security and insect protection and prefer a contemporary look (or one that does not distract from existing front door and entrance area).

1. GALVANISED WOVEN DOOR

A fantastic option to achieve a contemporary look with a strong, durable, and affordable security[^] door.

- ✓ **CONTEMPORARY DESIGN**
Fitted to perimeter frame only (no mid-rail or grille required).
- ✓ **VISIBILITY**
Black (only) mesh absorbs the light making easier to see through. Can showcase decorative door behind and does not obstruct your beautiful view from inside.
- ✗ **CORROSION WARRANTY**
- ✓ **AFFORDABLE OPTION TO ACHIEVE THE LOOK**
- **DURABILITY**
Mesh is pop riveted to frame with high strength wedge retention system however mesh is not as strong or durable as other doors in this contemporary range.

Technical Details:
High strength Galvanised Mesh, Powder Coated Black
Frame:
Aluminium
Strength Rating:
/////////
Security[^] Rating:
/////////

2. ALU-GARD PERFORATED ALUMINIUM SCREENS

ALU-GARD is a perforated aluminium sheet retained in an extruded aluminium frame. These doors provide security[^], clarity of vision and strength with corrosion resistance.

- ✓ **CONTEMPORARY DESIGN**
Fitted to perimeter frame only (no mid-rail or grille required).
- ✓ **VISIBILITY**
Black (only) mesh absorbs the light making easier to see through. Can showcase decorative door behind and does not obstruct your beautiful view from inside.
- ✓ **DURABILITY**
Construction of perforated aluminium sheet retained in an extruded aluminium frame with riveted wedge retention system provides excellent strength
- ✓ **HIGHLY RESISTANT TO CORROSION**
- ✓ **AFFORDABLE**
More affordable than INVISI-GARD or Steel Security doors.
- ✓ **SUITABLE FOR BUSHFIRE ZONES**
Suits applications up to Bushfire Attack Level BAL29
